Exceptional Quality, Compassionate Care

2022 IMPACT REPORT

Creating Multi-Dimensional Value For All Stakeholders

Certified

Corporation

MISSION:

Our mission is to optimize the health and happiness of our patients, team members, suppliers, community, and the environment through exceptional quality care and sustainable business practices.

VISION:

Our mission will be enacted by providing exceptional quality oral health care that is empathetic, caring and compassionate. We will create opportunities for the growth and development of our team members professionally and personally. The prosperity of the organization will create the conditions for all of its stakeholders to flourish.

VALUES:

Love, Wisdom, Compassion, Service, Collaboration, Creativity, Ethical Integrity, Empathy, Fun

Dear Stakeholders,

We are delighted to share the 2022 Artisan Dental Impact Report with you. In this report we have summarized a portion of the initiatives that were implemented to support our mission of creating multi-dimensional impact for all the stakeholders connected to Artisan Dental. We appreciate the opportunity to be of service to you, your families and respective organizations you work with to provide exceptional quality oral care and contribute to the creation of a more sustainable economy and society that works for the benefit of all.

Below are a few examples of the value adding programs Artisan Dental and its stakeholders collaborated on during 2022.

Patients - Dr. Mark Reherrmann, began offering dermal filler for esthetic purposes.

Team - Artisan Dental offers all team members a quarterly "Body Work" allocation of \$80, designed to be used to foster physical wellness based on the team members preference for services such as (therapeutic massage, chiropractic care, acupuncture, movement art classes such as yoga, qi gong).

Community - Director of Human Resources and Compliance, Lindsay Schuessler, worked with Aflexx Assistant Arm to offer feedback around the development of a re-usable suction tip and participated in their company's podcast, Wellness Wednesdays.

Environment - Artisan Dental became carbon positive dental office offsetting 20% more greenhouse gasses than were created through its operation. Supporting the drawdown of additional carbon in the atmosphere.

Governance - Artisan Dental's - Director of Business Development, Rochelle Guastella, earned the Fellowship designation within the American Association of Dental Office Managers.

In 2023, we will be implementing an artificial intelligence software to support the evaluation of patient radiographs. We will also be evaluating a range of new products and services offerings for potential introduction to patients, including those with more sustainable attributes. Our team will continue to develop and receive training to enhance their clinical care, leadership and communication skills, coupled with designated times during the day to foster their own health and happiness. We will be working with suppliers, to support their product development efforts as well as transitioning to suppliers that more closely align with Artisan Dental's mission and Dental Supplier Code of Conduct. Within the community, we will continue to be a resource, model and inspiration to dental industry participants regarding how they can enhance their sustainability programs within their respective organizations. Our service plans for the environment include drafting articles for publication in the media outlets of various global and national dental industry associations.

As always, we welcome your suggestions around how we can continue to provide you with the highest quality care and contribute to the health of all of our stakeholders.

Dr. Nicole Andersen, Co-owner & Dentist

Scott Andersen, Co-owner & Director of Stakeholder Stewardship

As a mission, vision and values focused enterprise, our intention is to create multi-dimensional value for all stakeholders connected to our business.

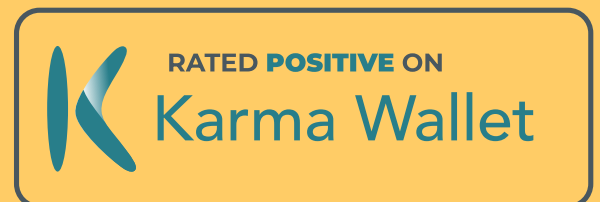

In an effort to provide our stakeholders with an independent third part perspective regarding our ability to bring our mission to life, we pursued and earned Certified B Corporation status in 2019. In 2021 we received Re-Certification. To become a Certified B Corporation®, an organization must meet rigorous standards of social and environmental performance, accountability and transparency. **The B Corporation certification has been described by Inc. magazine as the most rigorous global standard for socially responsible business (1).**

In the following pages you will find examples of how Artisan Dental is creating benefits for our patients team members customers community and environment together with how these benefits contribute to the realization of the SDGs.

THE B CORP DECLARATION OF INTERDEPENDENCE

We envision a global economy that uses business as a force for good. This economy is comprised of a new type of corporation - the B Corporation - Which is purpose-driven and creates benefit for all stakeholders, not just shareholders. As B Corporations and leaders of this emerging economy we believe

- That we must be the change we seek in the world.
- That all business ought to be conducted as if people and place mattered.
- That, through their products, practices, and profits, businesses should aspire to do no harm and benefit all.

To do so requires that we act with the understanding that we are each dependent upon another and thus responsible for each other and future generations.
