

TransFORM Body Treatment with TriHex Technology®

BENEFITS

Used twice daily, it helps to:

- **ACCELERATE** body fat reduction procedure results.¹
- **ENHANCE** body-skin tightening procedure results and provides a daily body skincare treatment with TriHex Technology® to improve the appearance of skin texture, laxity, and crepiness post-procedure or as a stand-alone treatment.²

HOW TO USE

Apply 2-3 pumps twice daily each morning and evening to the desired or treated area.

KEY INGREDIENTS

TriHex Technology®

Helps support the skin's natural ability to produce new healthy elastin and collagen.

Hexapeptide-11 and Candida Extract

Help to encourage and accelerate the clearance of broken down fat created via fat reduction procedures to enhance visible results.

***Specific benefit for post-fat reduction procedures.

Acetyl Tetrapeptide-2 and Dill Extract

Help to increase elastin production, addressing skin laxity, improving the texture and tightening of the skin.

Linseed Extract and Plantain Leaf

Help to increase GAGs and HA production for improved hydration, skin crepiness, and texture.

parabenfree

crueltyfree

glutenfree
