Meet our CEO

Marya Khalil | CEO

Marya Khalil is the eldest daughter of the founder of the VI Peel, Dr. Abdala Khalil. As the first patient to have used the VI Peel, Marya was the inspiration behind the product and the reason it was formulated. As a teenager, Marya struggled with cystic acne.

It was only through her father, Dr. Khalil's revolutionary VI Peel formula that she found a safe and painless cure to treat her condition.

Now, Marya's mission is to help people of all skin types restore their confidence in their skin.

"Our mission is to transform people's skin and confidence so they can reach their true potential."
